

## COMPARISON OF PARENT SURVEY RESULTS 2006, 2008 to 2009

The following comparison is based on questions that were asked in 2006, 2008, 2009. In some cases a question was ask in just 2008 and 2009, but not 2006. Many of these questions were significant because in 2008 the results were mostly positive or generally negative.

In 2009, we added the option of NA. I have included the percent of NA responses after the 2009 figure and in parenthesis I put the percent of positive responses from the pool of respondents who did not respond NA.

It should be noted that I added averages together to get the percent of parents who agreed or strongly agreed. To expedite the process, I did not go back to the raw data and create averages of the total of agree and strongly agree comments.
